

I want to say a little some on one other subject and that is this. You recollect you told me the day before you left that you would make arrangements for those shingles. (Now/How) son I have got the \$3.00 which you borrowed of one from Old Maly and if I was sure you would come back again I would not be afraid to trust you for 40 bunches of shingles as I think you must know from what I have always been willing to do for you. But you know that life is very uncertain and if you should never come back I could not ask for pay & as I think and I guess you must think if you know anything about it. Your \$5.00 which you left for your family has went pretty fast. I feel that I would like to have the hay for those shingles and if you ever come back & want any help & it is in my power to grant it you shall freely have it. Please write to Old Maly giving him the power to pay me.
